

Order number: 20610123**Open text field 1:**

Central control module for controlling all channel units in the UFOcompact plus signal processing system in conjunction with the USW 800 software (included with the UFG 810 base unit, order no. 20610122)

Two Fast Ethernet ports for management and cascading of multiple installations without an external switch

Flexible IP configuration (IPV 4/IPV 6, DHCP, Zeroconf)

Management interface with high performance thanks to parallel communication, including with UFOcompact modules used

Power on reset for UFOcompact plus series modules

Two USB connections (e.g. for software updates)

Remote software update for modules

Hersteller: Kathrein

UFX 800

Product information "UFX 800"

Central control module for control of all channel units in the UFOcompact plus signal processing system (included with the UFG 810 base unit)

Type:	UFX 800
Order no.:	20610123
Control interface:	12 MBit/s
Interfaces:	-----
Dimensions (H x W x D):	110,5 x 38,5 x 207 mm
Power consumption:	Typ. 4 W
System data:	-----
Fast Ethernet:	2 x RJ 45
Temperature range:	-20 ... +50 °C
Reset:	Button
USB:	2 x Host (Typ A)
SNMP:	Available as software option (UFW 800)
Weight:	0.3 kg
