Hot-dip galvanised

Hersteller: Kathrein

**ZAS 03****Product information "ZAS 03"**

Mast 2.0 m - Diameter: 60 mm - Suitable for CAS 60/80/90/120

Type:	ZAS 03
Order no.:	218613
Suitable for sat antenna:	CAS 60/CAS 80/CAS 90/CAS 120
Permissible bending moment at 800 N/m ² ¹⁾ :	1449 Nm
Permissible bending moment at 1100 N/m ² ¹⁾ :	1424 Nm
Grade (steel):	S 235 (St 37)
Dimensions Ø/L/wall thickness:	60/2,0/- mm/m/mm
Packaging unit/weight:	1 (25)/9.0 pc/kg

¹⁾ The wind loading of the mast has already been taken into account. The maximum permissible bending moment at the attachment point applies at the maximum usable length. In accordance with EN 60728-11, the mast clamped length must be at least 1/6 of the mast length

²⁾ Applicable for 1650 Nm at clamping point. If this value is exceeded, static verification is required in accordance with EN 60728-11
